

# SUSTAINABLE

## THIS ESTABLISHMENT

is proud to feature compostable *To-Go!* foodservice supplies.

### Sugarcane & wheatstraw fiberware:

- ~Heat stable to 220 degrees (F), hot fluid capable, microwave & freezer safe.
- ~Insulating, impermeable, oil & cut resistant.
- ~Made from UV & steam sterilized byproduct left-over from sugarcane & wheat processing.
- ~Whitened with peroxide, a non-toxic & biodegradable process, or unwhitened.
- ~No dioxins or petroleum.
- ~Compostable in home & approved composting facilities in 30-90 days & recyclable.

### Compostable utensils:

- ~Made using 70% Natureworks Ingeo™ biopolymer & 30% talc for rigidity.
- ~Heat stable up to 200 degrees (F).
- ~Compostable in approved composting facilities in up to 180 days.

### Compostable hot cups:

- ~Lined with Natureworks Ingeo™ biopolymer (derived from USA grown plant sugars).
- ~Better tasting beverage with NO petroleum distillates like benzene & styrene (known carcinogens) which typically leech into food & drinks from conventional petroleum lined paper or foamed-plastic containers.
- ~Compostable in home & approved composting facilities in 30-90 days.

### Compostable cold cups:

- ~Made using Natureworks Ingeo™ biopolymer, an annually renewable & petroleum-free bio-plastic derived from USA grown plant sugars.
- ~World's first greenhouse-gas-neutral polymer.
- ~Uses up to 68% less fossil fuel energy to produce than traditional plastics.
- ~Compostable in approved composting facilities in up to 180 days & recyclable.
